

The company is named after the area where our cultivations are in the Municipality of Pimentel, in the Campidano plain, South-Western Sardinia. We chose to refer to the Latin spelling as the area is rich in ancient Roman settlements as well as others of even older times, the famous Domus de Janas, the Houses of the Fairies or of the Witches, a kind of pre-Nuragic chamber tombs.

Our products are made of the **cultivation of Cannabis Sativa**, which began in 2016 as an experiment to improve the fertility of our soils. As we realized about its multiple benefits, we decided to use it as a main crop.

We then started distilling the inflorescences to obtain the hydrolats and the essential oil.

Currently we produce three cosmetic products from the processing of the raw materials: **hydrolat, decontracting massage oil, and anti-age serum.** We resort to very natural agronomical techniques, such as organic soil improvers and crop rotation, using neither chemical fertilizers nor pesticides.

SIERO

Serum of Cannabis Sativa Hyaluronic acid

Our innovative facial serum is made by selected ingredients. Thanks to its antioxidant properties, it regenerates tissues for a restored, hydrated, and radiant skin, removing wrinkles and smoothing your face. Its use leaves your skin fresh, clean, and elastic, revitalizing your face, neck and décolleté. Hyaluronic acid and Cannabis sativa hydrosol provide compactness and tone for a healthier and younger look. The product is non-greasy and does not irritate. It is suitable for men and women aged 25 and over. Instructions for use: Distribute evenly on cleansed face making delicate circular movements from the inside to the outside. Apply also on the neck and décolleté.

For external use

IDROLATO

Hemp hydrolat - Cannabis Sativa L. - (Cannabaceae)

Vitamins, mineral salts and fatty acids contained in this product make it a perfect anti-aging remedy. It protects, moisturizes and soothes even the most irritated and sensitive skin. A lenitive for chapped skin and diseases such as dermatitis, acne, eczema, psoriasis, as well as for insect bites. It performs a long-lasting action, refreshing in summer and protecting in winter. Excellent against mycoses. It restructures dry and frizzy hair, helping regain softness and radiance as its nutrients penetrate deeply into the fibers. The light, ultra-absorbent non-greasy formula is dermatologically tested, hypoallergenic, and perfume free. Suitable for use at all ages.

Instructions for use.

Spray the product on the interested part. It proves effective from the first application, hydrating and protecting skin, face, and hair.

Non-greasy.

OLIO

Cannabis Sativa and Fennel Oil

Oil is the most powerful ally of beauty. It creates a hydro-lipid film on the skin that helps slow dehydration deeply nourishing the tissues. It is an efficacious lotion which improves skin tone and elasticity. Easy to spread and to absorb, it leaves the skin smooth and hydrated. It is a valid aide against atopic dermatitis, mycosis, and for all localized inflammations and irritations. It is beneficial on acne-affected skin as well.

Mode of use. Daily use of the product is recommended. Spray and massage all over the body.

Do not expose to direct sunlight after applying onto skin. Suitable at all ages.
